20210304

A) sprouting both sides

Daf at N end of island sprouting

Daf N of circle in island sprouting

Moved 4 daff sprouted at E to NW end side walk and into orchard near "Johnson Keeper"

Buds on 2019 yellow daffs and moss garden daffs

Mossgarden

20210301 generally sprouting

A)

B -> C) sprouting - have pushed back the mulch. Some random ones in the area may have been harmed by the big pine logs od the zig zag fence.

D) sprouting

E) I think these are eradicated by the masons

F) sprouting & look healthy

20190402

- F) 12 14 Mixed yellow back moss bed — long blooming show
- E) 10 Mixed white front moss bed — just recently began. Plants wimpy compared to back. Probably should be moved to more sun.
- D) Malykins' Xplant around island - just beginning — small multi bloom pale yellow
- C) Malykins' Xplant in line west of tulip poplar 001 (8- lots, three lines) - just beginning — small multi bloom pale yellow
- B) were moved to C
- A) Malykins' west side of driveway @ road — bud on one

20190213

- A) Malykins' west side of driveway @ road
- B) ~~Malykins' three clusters near the sidewalk phlox~~ 90% sure I moved these
- C) Malykins' Xplant in line west of tulip poplar 001 (8)
- D) Malykins' Xplant around island

20190908 Brent&Becky's Bulbs \$24.25: in orchard between blue berries and apple along promenade & at base of Aunt Rachel

For yellow daffs 15 5 each

Late <https://www.brentandbeckysbulbs.com/Narcissus/Primeur/Daffodil>

Genus: Narcissus

Cultivar: Primeur

Bloomtime: Mid Spring, Late Spring

Color: Yellow

Sun: Full Sun, Part Shade

Height: 13" - 18"

Primeur - (1 Y-Y) an exquisite, deep, rich, golden yellow trumpet show flower with enormous substance; one of the best perennial and latest blooming golden yellow daffodils in our garden; mid spring; 14"-16".

Narcissus: Division 1 – Trumpet

Mid <https://www.brentandbeckysbulbs.com/Narcissus/Gigantic-Star/Daffodil>

Cultivar: Gigantic Star

Family: Amaryllidaceae

Bloomtime: Early Spring, Mid Spring

Color: Yellow

Sun: Full Sun

Height: 13" - 18"

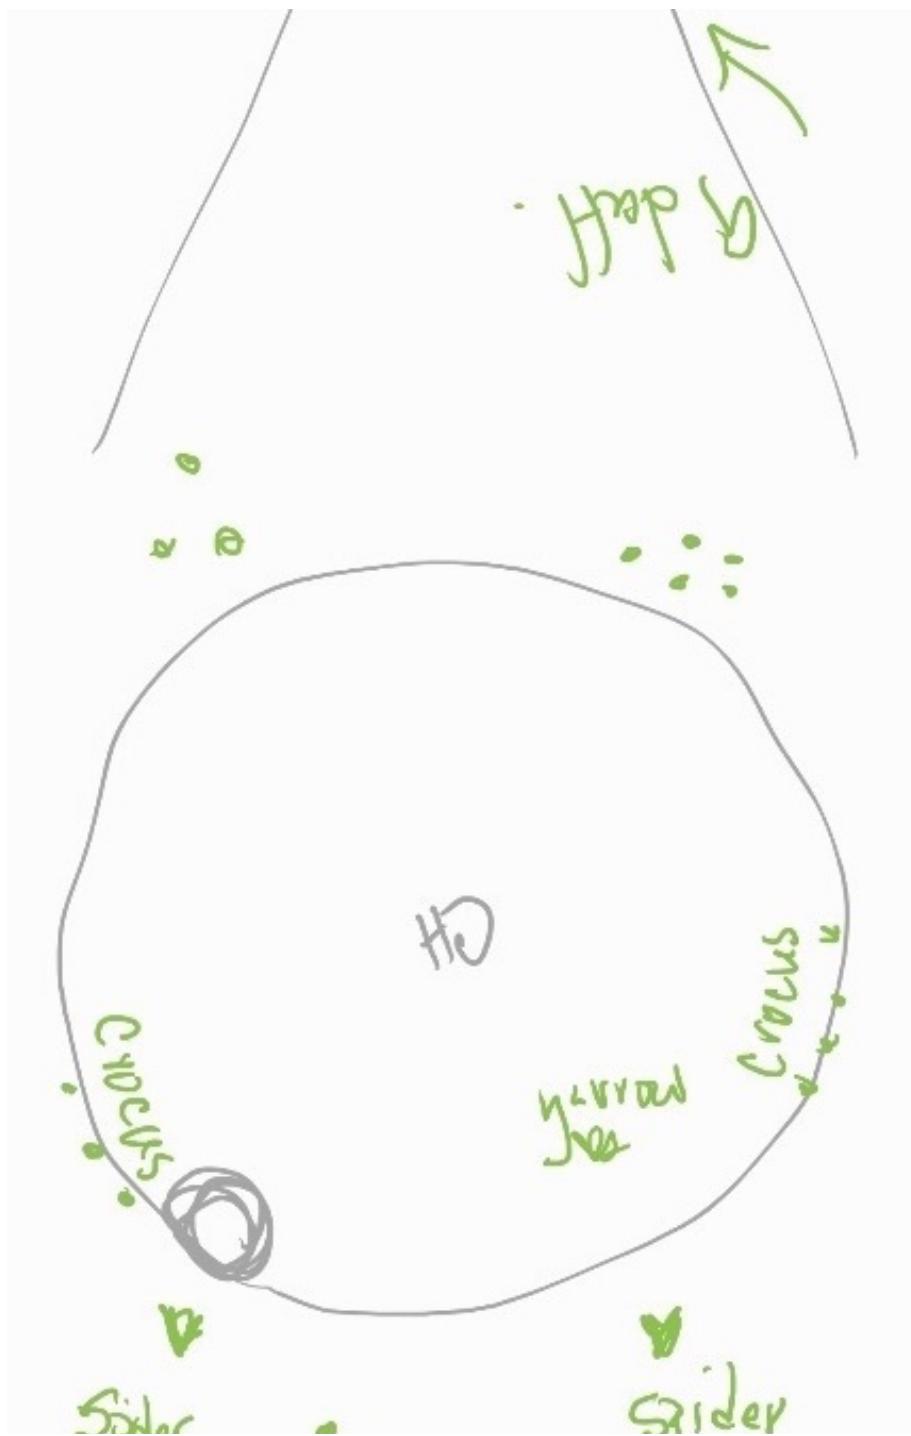

Narcissus: Division 2 – Large Cup

Gigantic Star - (2 Y-Y) very large, saffron yellow, long-lasting perennializer with a vanilla-like fragrance; one of the best giant yellows; whz 3-9 but especially good in the south; 18"-24"; early-mid spring.

Early <https://www.brentandbeckysbulbs.com/Narcissus/Carlton/Daffodil>

Cultivar: Carlton

E) 10 Mixed white front moss bed. 5 up as of 20180305, numbered from e to w 5 up
20190213

F) 12 14 Mixed yellow back moss bed

2021

M1: first to bloom, yellow cream with a light yellow center

20190116 east-most E and some in F sprouting

2018: Inventory

- A) Malykins' west side of driveway @ road
- B) Malykins' three clusters near the sidewalk phlox
- 20180528 Moved at least one cluster to tulip poplar tree 001
- C) Malykins' Xplant in line west of tulip poplar 001 (8)
- 201805 never bloomed
- 20180528 Moved at least one cluster to tulip poplar tree 001
- D) Malykins' Xplant around island

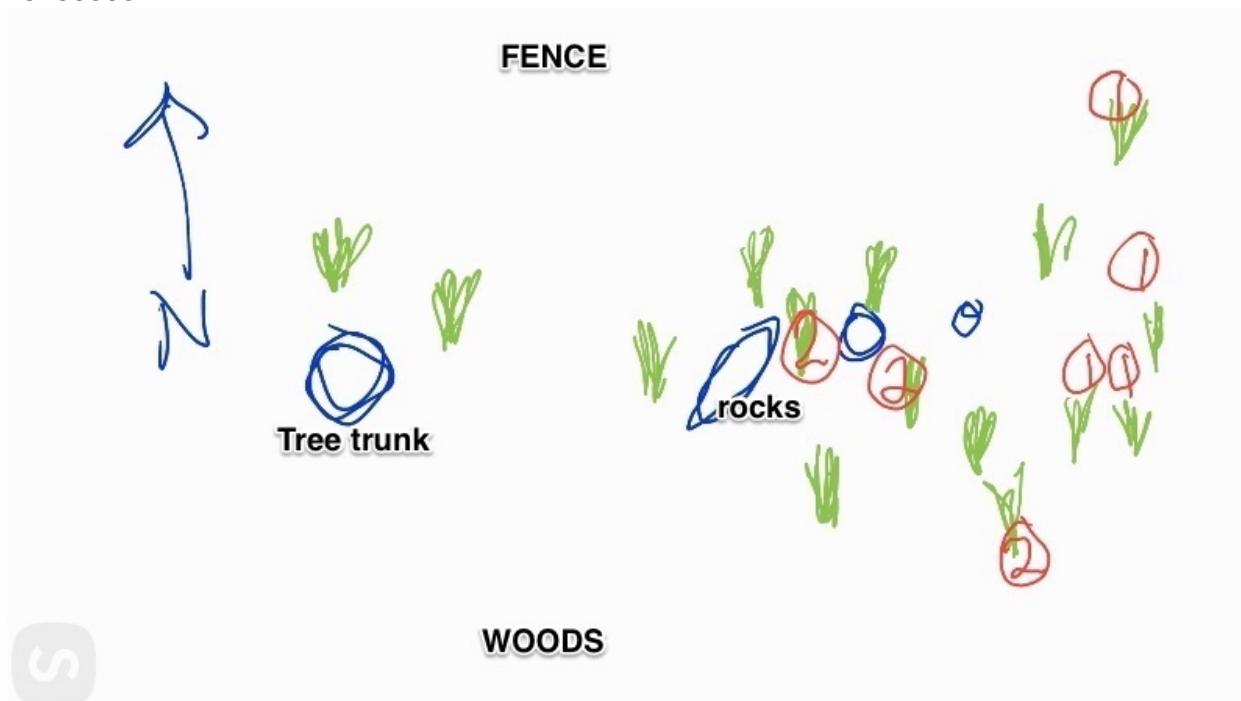

E) 10 Mixed white front moss bed.

5 up as of 20180305, numbered from e to w

1- 1W-WWY, 2W-WWY

F) 12 Mixed yellow back moss bed [need to move to glade]

20180305

M1: 2W-Y or 2 W-YYW

Creamy white tepals with light yellow trumpet
Double triangle,
three spreading planes, ovate, mucronate, center rib
three inflexed with slight twist, oblong, mucronate, many ribs
Bowl perianth ribbed, mouth straight and frilled,
rim flanged & dentate, slightly paler, perhaps ages to white

M2: 2Y-YYO

Clear yellow tepals with warmer yellow shading to orange trumpet
Double triangle,

three spreading planes, broadly ovate, prominently mucronate, (rib?)
three spreading planes, ovate, prominently mucronate, (rib?)
(Mucronate tips whitish)
Cup perianth ribbed, mouth flared and frilled, rim straight and dentate

Front

2021: probably lost #5

2018: Inventory

- A) Malykins' west side of driveway @ road
- B) Malykins' three clusters near the sidewalk phlox
- C) Malykins' Xplant in line west of tulip poplar 001 (8)
- D) Malykins' Xplant around island
- E) 10 Mixed white front moss bed.

5 up as of 20180305, numbered from e to w

1- 1W-WWY, 2W-WWY

F) 12 Mixed yellow back moss bed [need to move to glade]

20180211 (B) sprouting; (E) 5 (F) now 7

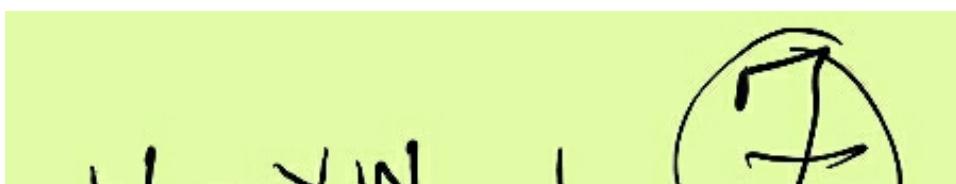

20180208 (F) location of 6 of 12 mixed yellow daff sprouting in back. Yellow dot location of star of Bethlehem to eradicate.

20180205 (F & E) noticed first sprouts of daffs in moss bed back, moss in front. Crocuses at S end of island (planted early)

20180127 (D) ... was very mild, and so i also got out and planted the Amaryllidaceae-Amaryllidoideae: Narcissus spp bulbs i'd dug up in Dec, ...

20171206 (D) dug up cluster of Malykin daffs from near gardenia in preparation for driveway
20170322

sun
+ think 20° F

S

20170321 one of the moss bed is finally blooming (a double, more buttery than white 2Y-W).

Back garden has six blooming (less the 5 picked). Clump in the old flower bed & the stand at the driveway entrance seem to be division 7-ish (Jonquilla and Apodanthus).

20170317 Have picked 5 backyard daff; ~5 blooming

20170301 Third daff in backyard garden blooming. Also realized a fifth white front moss daff was sprouting the the east of the two taller moss daffs.

20170227 Two daffs in the bedroom garden bloomed.

20170222: Inventory

- A) Malykins' coming up on west side of driveway @ road (along with other bulbs)
- B) Malykins' coming up in three clusters near the sidewalk phlox
- C) Malykins' was near future driveway circle, moved to west of tulip poplar 001 (8)
- D) Malykins' coming up in crepe myrtle garden (along with other bulbs)
- E) Mixed white: 2 up, 2 poking out in moss bed. None apparent near the H syriacus
from the stairs > East Yard: ?, pale yellow 2"W"- "W", ?, ?
- F) Mixed yellow: 12 up, one with bud. Mix looks quite successful.

[20170103 finally got around to planting the mixed white daff bulbs \(Amaryllidaceae-Amaryllidoideae: Narcissus spp\)](#) from [20160930 Bynum Community Garden Fall Bulb Sale](#) Two were clearly bad, plus several questionable. Several were sprouting. Most (8, 7 good) planted in a line in the moss in front of the front room window, some (3 of the sadder cases, 1 good) planted around the [Malvaceae: Hibiscus syriacus \(possibly "Aphrodite"\)](#)

201610xx - bought mixed yellow daffs from Country Farm & Home & planted in naturalized garden area outside bedroom

[20160930 Bynum Community Garden Fall Bulb Sale](#)

10 White Daffodil Blend \$15.00

Singles, Doubles, Trumpets and Miniatures. We've put all our favorite white daffodils together to create this special blend. Spectacular in the garden as they provide the greatest contrast from their variety of green foliage.

#78122

At-A-Glance:

- **Spacing:** 5-6"
- **Height:** 14-18"
- **Hardy Zones:** 3-7

-  **Full Sun**

-  **Partial Shade**

-  **Good for cutting**
